

August Meeting

Wednesday, August 11

Ramona Garden Park Center
993 Ramona Avenue
Grover Beach, CA

"Using Kaizen Events to Drive Continuous Improvement"

by Dr. Eric Olsen

In this 1 hour presentation Dr. Olsen will show how the basic principles of lean are supported and realized by well constructed "kaizen events". Kaizen events are intense, highly focused problem solving sessions designed to get the people responsible for the process engaged in making it better. Dr. Olsen will share his experiences in recent kaizen events held at Cal Poly and answer questions from the audience on their own experiences with kaizen events and lean.

\$5 for APICS members

\$10 for non-members

Food & drinks/door prizes
